# Welcome!

Northwood is pleased to introduce to you, **The 2008 Nash Fifth Wheels & Travel Trailers.**

With 17 plans to choose from, there is a Nash Travel Trailer or 5th Wheel to fit the needs of nearly every RV buyer. Whether you're in the market for a compact travel trailer and off road recreation or a spacious 5th wheel intended for casual park camping, The Nash offers a wide variety of features and options sure to satisfy your needs.

That's because The Nash was designed with the informed RV purchaser in mind.

We invite you to take a look and you'll see why Nash is the RV of choice for the value minded buyer, and why The Nash is known as "Practical, Comfortable and Off Road Tough".

*26X Hunter Interior*

## Features

Every Nash includes:  
a quick winterization system,  
all wheel brakes,  
black tank flush system,  
abundant lighting placements,  
numerous electrical outlets,  
and ducted heating & cooling in most models.

The Nash truly is feature rich!

## Confidence

Beyond it's features, Nash has built it's reputation on quality materials and solid construction methods. Because the Nash is so durable, satisfied owners are pleased to discover how well the Nash maintains it's resale value.

*(If you're ever willing to turn loose of one!)*

## Beauty: It's more than skin deep!

At first glance, it might seem strange to include a picture of a steel I-Beam in our opening pages, but we know that our chassis' are gorgeous!

Everything rides on the quality of your chassis and suspension and **Nash builds the best !**

Look underneath the coach and see for yourself, your family's safety is secure in the Nash. You'll feel the difference that a quality chassis, larger axles, bigger brakes and optional all wheel shocks will make as you travel down the road or when you get adventurous and take your Nash off road.

**The Nash will go where competitors fear to tread!**

*Efficient:*

Just like home, the forced air ducted heating and cooling systems in your Nash provide fast winter warm-up and quick summer cool down.

The heating system also circulates warm air to our '4-Season' fully enclosed & insulated holding tanks (all models except the 17C). The Nash is a big seller in cold Northern climates. All Nash's come standard with R18 insulation in the roof and R7 insulation in the walls. Thermal pane windows are available on all Nash's and so are storm windows.

All Nash's are equipped with a Charge Wizard battery management system to maximize your battery performance and all LPG tanks are connected through an auto change-over regulator to switch from the empty tank to the full supply when the first is emptied.

# Comfortable:

You'll be assured of a restful night's sleep in your Nash. All mattresses are deluxe queen size. Bedrooms include coordinated bedspreads and window treatments, plenty of storage cabinets and a large underbed storage area in most models. Optional twin beds are also available in some models and Nash bedrooms also feature mirrored overhead cabinet doors. You will find many other residential features in the Nash offering you all the comforts of home.

# Travel Trailers

## Construction

The Nash is Built Right! Our one piece heavy gauge roof membrane material and our exterior WBP subfloor of marine grade plywood decking both provide excellent durability and longevity. Thick commercial grade vinyl flooring and construction grade dimensional lumber are

standard materials in the Nash. We assemble our coaches using the best proven construction methods and processes too. Our custom cabinet production facility uses face frame construction & real plywood shelving, (not chipboard). Nash 5th-Wheels and Travel Trailers offer a spacious galley work area for food preparation.

## Kitchen

All coaches feature an extra large range, a 22" broiler/oven and range hood with overhead light and exhaust fan. All galley are pre-wired for a microwave oven. Self edge counters and dinette are standard, and a free-standing dinette set is a popular option available in some

models. We provide ample storage in overhead cupboards, under counter cabinets, shelves, and drawers. Nash Travel Trailers and 5th-Wheels are rated the among the safest and most durable coaches in their class. Whether you're hunting, camping, working or adventuring, you'll find every floor plan is innovative, practical and comfortable.

# 5th Wheels Slide Rooms

Super slide models come with a jackknife sofa or optional hide-a-bed and a dinette that converts into an additional sleeping area or a free standing 4 chair dinette...

## *Exterior*

The Northwood roof truss system bonds exterior plywood decking to the trusses as a unified structure that is amazingly strong yet light weight. On all Nash models, the diamond plate front rock guard and rear bumper wrap are tough, attractive and built to last. The Nash is quality materials and construction from start to finish!

## *Convenient*

The built in black tank flush system is simple to use and makes maintenance of the waste holding tank quick and easy. The Nash is designed with your convenience in mind.

*Built-In  
Black Water Flush System  
Standard In All Models*

## A Solid Foundation Structural Steel

All Northwood 5th Wheels & Travel Trailers are built with structural steel main rails of I-beam or C-channel. The full length main rails and full width cross members insure a solid structure for easier towing and a quality feeling structure under foot. Chassis also include Z cross members for additional strength.

All Northwood travel trailers include dual battery racks that are welded directly to the frame. Travel trailers include a large capacity, dual LPG tank rack that is conveniently located at the trailer tongue for quick access.

We design and build our own chassis to guarantee quality. We use only top quality Rustoleum finish to prevent rust. We also double prime our welds for added protection.

## Camber Welds

Special welds are applied along the top of the main rails to create camber. Our cambered frame has greater load carrying capabilities than others. Our chassis functions in the same way as a pre-stressed structural beam. The Arctic Fox won't sag like the competitors models under full load weight. (Even after many years of service). Extra considerations such as these insure that your Nash will maintain its value and that Northwood coaches will continue to be a top performer among competitive RV manufacturers.

## Cast Iron Gas Manifold

We nest our LP gas manifold line within the chassis structure to protect it from damage. We use large dimension pipe to improve gas flow to all appliances. We also use brass fittings to attach appliance feed lines to the manifold. All of these considerations make our gas supply system extremely durable and problem free. LP lines are protected with vinyl sleeves and sealed with silicone when they pass thru the floor.

## A True 4-Season Coach

Standard in all Nash  
Fifth Wheels & Travel Trailers  
(except 17C)

### Fully Insulated Compartment

The Nash is a true 4-Season Coach. Our fully insulated holding tank area circulates warm air around the suspended tanks providing the best protection from freezing.

The tanks are large and will hold up to 76 gallons of fresh water capacity, 75 gallons of gray water storage, and up to 44 gallons in the black storage tank. The black holding tank comes with an internal sani-flush system for easy maintenance.

Fully Insulated Tank Compartments

## 4 Star Rating

RV Consumer Group has given the Nash consistent high marks of Value, Reliability and Highway Control. The Nash is engineered for Safer Travel! Because our chassis are so solid, you will feel the difference when towing your Nash down the highway.
