DESERT FOX

MADE TO PLAY HARD

*Form & Function:
Interiors that work, beautifully!*

38-5U Bali Hai Interior

Welcome!

Northwood is pleased to introduce to you,
The Desert Fox.

With several plans to choose from, there is an Desert Fox to fit the needs of nearly every RV buyer. If you're in the market for a compact travel trailer for off road recreation or a spacious 5th wheel, Desert Fox offers a wide variety of features and options sure to satisfy your needs.

That's because Desert Fox was designed with the informed RV purchaser in mind.

We invite you to take a look and you'll see why Desert Fox is the Sport Utility RV of choice for the experienced buyer...

and you'll see why we say,

"Made To Play Hard".

Our huge full height cabinets are built with plywood and are secured to the wall and ceiling adding substantial structural integrity of the coach. Desert Fox is the best built toyhauler on the market today!

215W Cactus Interior

Beauty: It's more than skin deep!

At first glance, it might seem strange to include a picture of a steel I-Beam in our opening pages, but we know that our frames are gorgeous!

Everything rides on the quality of your chassis and suspension and

Desert Fox builds the best !

Look underneath the coach and see for yourself, your family's safety is secure in the Desert Fox.

You'll feel the difference that a quality chassis, larger axles, bigger brakes and all wheel shocks will make as you travel down the road or when you get adventurous and take your Desert Fox off road.

The Desert Fox will go where competitors fear to tread!

Ron and Sherry Nash

Heavy Gauge Structural Steel I-Beam Main Rail

Features

Every Desert Fox includes: a quick winterization system, large tinted windows, a black tank flush system, abundant lighting placements, numerous electrical outlets and ducted heating. Desert Fox truly is feature rich!

Confidence

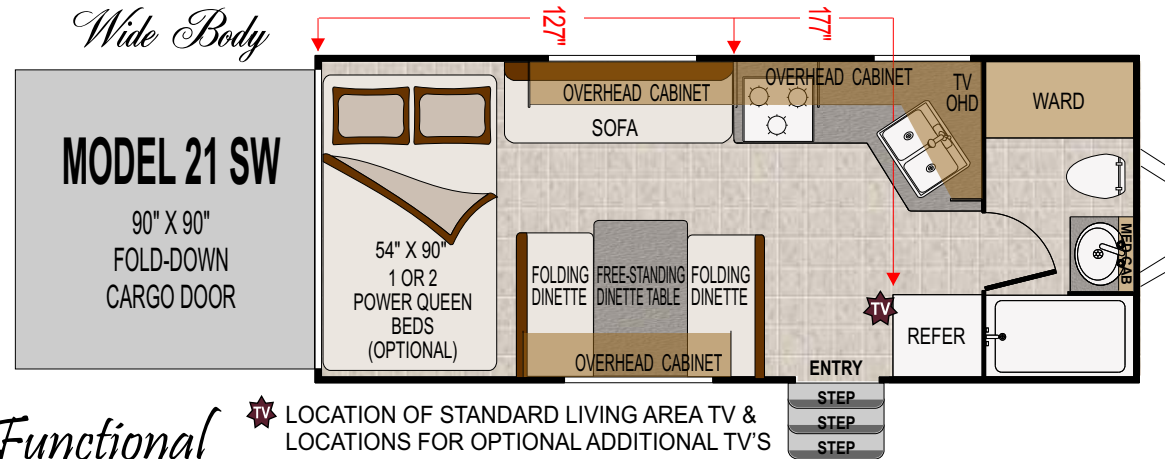

Beyond it's features, Desert Fox has built it's reputation on quality materials and solid construction methods. Because it's so durable, satisfied owners are pleased to discover how well Desert Fox maintains it's resale value.

(If they're ever willing to turn loose of one!)

"We welcome you to the World of Sport Utility RVing and our Desert Fox Toyhaulers"

Wide Body

Functional

Thermal pane windows are also available and all Desert Foxes include 80/20 tinted windows. These windows keep you cool, provide privacy, and protect your furnishings from harmful UV rays.

All Desert Foxes are equipped with a Charge Wizard battery management system to maximize your battery performance.

All LPG tanks are connected through an auto change-over regulator to switch the supply of propane to a full tank when the first one is emptied.

DESERT FOX SURV's feature comfortable, functional interiors that adjust to your needs. Inside you will find lounges that convert into beds or stow away against the wall for maximum storage. Our dinettes convert into beds or also store flat against the wall. Optional features such as a single or double bunk electric power lift queen bed are also available.

Everything about the DESERT FOX reflects smart design and attention to function and comfort to maximize your RV experience.

Interior features include: Quick Recovery DSI Gas/Electric Water Heater, Pantry Storage Rack, Pull-Out Kitchen Faucet-Sprayer, and exterior features include: Drip rails with oversized drain spouts to project water away from the coach, Multiple patio lighting placements, Marine quality exterior speakers & much more...More options include: Flat Panel TV, DVD Entertainment, 5.1 Surround Sound, and exterior options include Solar Panel, Generator, Auto Scanning Satellite Receiver.

Efficient

Just like home, the forced air ducted heating systems in your Desert Fox provides fast winter warm ups. The heating system can also circulate warm air to our optional 4-Season fully enclosed, insulated holding tanks. 4-Season is standard in all models.

Another reason Desert Fox is so efficient is because all Desert Foxes come standard with R-18 insulation in the roof and R-7 insulation in the walls. all of these features combine to make the Desert Fox a big seller in cold northern climates.

Desert Fox 21SW

Desert Fox 24AS

Comfort

You'll be assured of a restful night's sleep in your Desert Fox. All plans feature queen size deluxe mattresses. Front bedroom plans include large under bed storage areas, large full height overhead cabinets, night stands and bed wards. Additional features include large mirrored closets, and many other residential features providing all the comforts of home.

Desert Fox 24AS - Bali Hai Interior

Construction: The Desert Fox is Built Right!

Whether it's materials like our one piece heavy gauge rubber roof membrane, our one piece corona treated filon outer wall, our WBP marine grade plywood decking, our .125' thick wall aluminum framing or our construction grade dimensional lumber, we use only top quality materials in the Desert Fox.

We assemble our coaches using the best proven construction methods and quality materials. Within our laminated walls are fully welded (not spot welded) aluminum frames with solid block foam insulation. Our custom cabinet production uses face frame construction & real plywood shelving (not chipboard). Our Northwood roof truss system bonds exterior plywood decking to the trusses as a unified structure that is amazingly strong yet light weight. On Desert Fox travel trailers, the diamond plate front rockguard is tough, attractive and built to last. The Desert Fox is quality materials and construction from start to finish!

- Heavy Duty Suspension
- Phone Jack

Why Local Dealers are the Best Way to Buy:

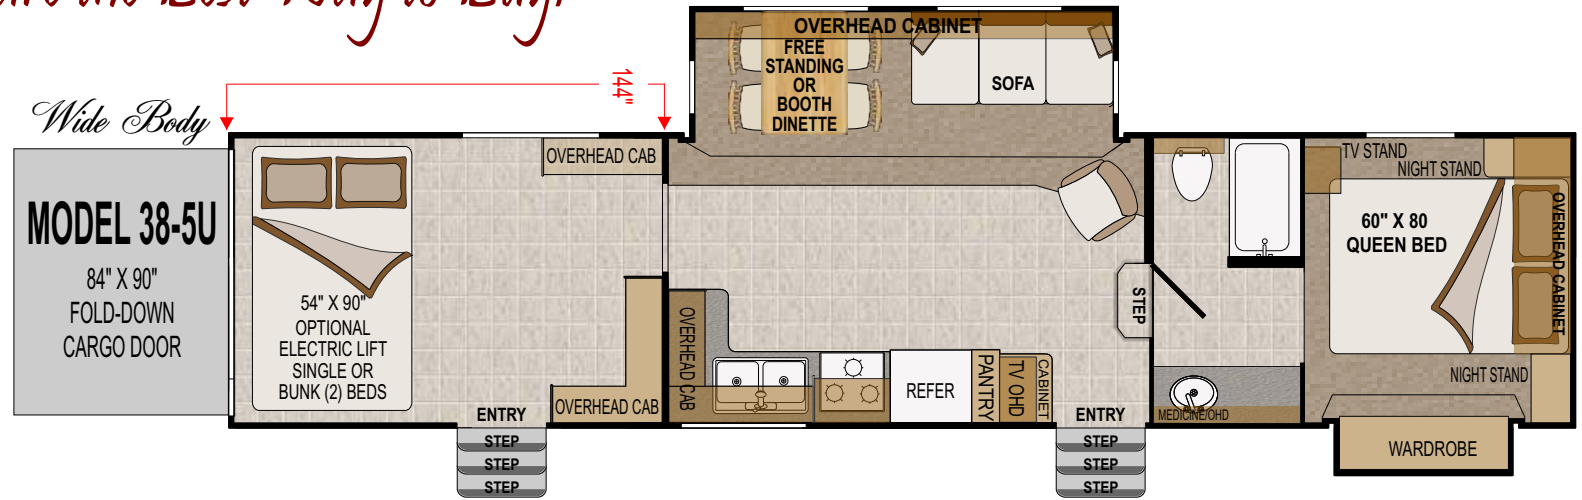

1. You will establish a valuable relationship with your local Dealer Representatives who are close to your home and who will explain the features and benefits of the product.

2. You will receive a complete product orientation prior to delivery, which includes hands-on directions for many of the coach's systems and functions. You will also be introduced to the Dealership's Service/Parts/Warranty personnel who are ready to help you with any issues you may encounter, both now and in the future.

3. You will enjoy customer PRIORITY. Dealerships generally service their purchasing customers products first - being first means avoiding delays that could result in missed travel opportunities with your RV. Ask yourself, 'What is it worth to you to have a dealership's full attention and motivation to satisfy your needs when you require service?'

4. Patronizing a local dealership means valuable TAX dollars and jobs will stay in YOUR community. Your tax dollars support roads, schools, police and fire departments.

5. Never underestimate the value of Local Customer Service. When you need service, your local dealer is there for YOU!

A Solid Foundation

Structural Steel

All Northwood 5th Wheels & Travel Trailers are built with structural steel main rails of I-beam or C-channel. The full length main rails and full width cross members insure a solid structure for easier towing and a quality feeling structure under foot. Chassis also include Z cross members for additional strength.

All Northwood Travel Trailers include dual battery racks that are welded directly to the frame. Travel trailers include a large capacity, dual LPG tank rack that is conveniently located at the trailer tongue for quick access.

We design and build our own chassis to guarantee quality. We use only top quality Rustoleum finish to prevent rust. We also double prime our welds for added protection.

Camber Welds

Special welds are applied along the top of the main rails to create camber. Our cambered frame has greater load carrying capabilities than others. Our chassis functions in the same way as a pre-stressed structural beam. The Desert Fox won't sag like the some competitors models under full load weight. (Even after many years of service). Extra considerations such as these insure that your Desert Fox will maintain its value and that Northwood coaches will continue to be a top performer among competitive RV manufacturers.

Welds along main rails create camber

Cast Iron Gas Manifold

We nest our LP gas manifold line within the chassis structure to protect it from damage. We use larger dimension pipe to improve gas flow to all appliances. We also use brass fittings to attach appliance feed lines to the manifold. All of these considerations make our gas supply system extremely durable and problem free. LP lines are protected with vinyl sleeves and sealed with silicone when they pass thru the floor.

Durable Loading Ramp

Extra Large Cargo Bay

Compact Stowable Furnishings

Fuel Station Option

A True 4-Season Coach

Standard on all Desert Fox 5th Wheels and available as an option on all Travel Trailers

Fully Insulated Compartment

The Desert Fox is a true 4-Season Coach. Our fully insulated holding tank area circulates warm air around the suspended tanks providing the best protection from freezing. The tanks are large and will hold up to 118 gallons of fresh water, 70 gallons of gray water storage, and up to 50 gallons in the black storage tank. The black holding tank comes with an internal sani-flush system for easy maintenance.

Fully Insulated Tank Compartments

4 Star Rating

RV Consumer Group has given the Desert Fox consistent high marks of Value, Reliability and Highway Control. Desert Fox is engineered for safer travel! Because our chassis are so solid, you will feel the difference when towing your Fox down the highway.

Just two 'straps and a snap' and the dinette is stowed away for more storage space or for travel. The dinette opens into comfortable seating or converts to an additional bed.

Varies in certain models.

Dinette and Sofa convert into spacious sleeping areas. Double Decker Queen Bunk Beds. Available in all models.

Select a Single or Double Queen Bunk on handy power tracks that stow the bed(s) flush against the ceiling overhead when not in use.

Available in all models.

Other Options Available in Desert Fox:

Auto-Scan Satellite Dish

Flat Panel TV

Solar Panels 50 & 100 watt

Skylight Dome w/ Shade

5th Airborne Shock Absorbing Pin Box

KEY: S Standard (no charge) I Includes this Option O Option Available on Request N Not Available in this Model

Please note that some options are not available in certain plans and some options are automatically included in a standard production run. As a regular practice, Northwood manufactures its coaches with standard features and popular options that our customers consistently request. Because these options are nearly always requested, our regular manufacturing runs will include all of these most popular 'optional' features. See the list on page 6 for features (both standard and optional), that are universally included in all standard build manufacturing runs. In the chart above, you will also find additional (S) standard features and (I) Included optional features that are available only in certain floor plans.
