*Aluminum SuperStructure*

[www.northwoodmfg.com](http://www.northwoodmfg.com)

# Welcome

Northwood is pleased to introduce the Arctic Fox Truck Camper. With nine plans to choose from, there is an Arctic Fox to fit the needs of nearly every camper buyer. You can purchase your Fox Camper with confidence because Northwood builds more slide out truck campers than any other manufacturer!

Arctic Fox offers a wide variety of features and options sure to satisfy your truck camper needs. That's because The Fox was designed with the informed camper purchaser in mind. We invite you to take a close look and you'll see why Arctic Fox is the camper of choice for the experienced buyer.

*Ron and Sherry Nash*

Built to withstand off-road use without leaving behind the comforts of home, the Arctic Fox Camper is the most popular full wall slide out truck camper on the market today.

*Model 990 \* Cactus*

# #1 Selling Slide-Out Camper

Our full wall slides are up to 26" deep, and our aluminum super structure slide out operates under heavier load conditions than competitors. Our transverse floor structure offers a wider main floor giving a spacious feel that is immediately apparent upon entering the coach.

When you compare the specifications of our slide out with the competition, you will see why Arctic Fox continues to be the industry leader. Arctic Fox is the leader in slide out truck camper design.

**Northwood sells more slide out truck campers than all other manufacturers combined!**

RV Consumer Group has given the Arctic Fox consistent high marks of Value and Reliability.

*\* Average rating of all models for Value, Reliability, and Highway Control* (Independent non-profit rating organization)

\* Average Rating of all models for Value, Reliability, and Highway Control (Independent non-profit rating organization)

*Form & Function: Interiors that work, beautifully!*

*Model 992 \* Chestnut*

*Model 811 \* Chestnut*

*Model 992 \* Taupe*

## Construction

Many manufacturers are building aluminum frame truck campers nowadays, but aluminum frames are not all the same. We are proud of the quality materials we use and the construction methods we employ to build America's best selling full wall slide out truck camper. There's no doubt that our Arctic Fox truck campers are attractive, but what really sets us apart from the competition is how beautifully

they're constructed. From our heavy gauge aluminum with continuous welded joints and solid fill anchor blocking, to our bonded full walk on roof that will support 26 employees, the Arctic Fox Truck Camper is truly a thing of beauty beyond it's good looks. Once you've owned an Arctic Fox, you'll never be satisfied with less. That's why we say... "Beauty is more than skin deep!"

*Arctic Fox*

*Model 990*

*Model 1150*

*Model 865*

## Full Walk-On Roof

When Northwood advertises a "Full Walk-On Roof" for our slide out truck campers, you not only can walk everywhere on the roof, but you could also invite a few of your friends to join you! We tested the strength of our full-wall slide 1150 model by filling the roof with 26 of our camper line associates and inviting them to pose for a picture.

*Now that's a FULL walk-on roof!*

# Comforts of Home

For years, Northwood has been the industry leader in slide out truck campers and this year is no exception! We will continue to lead the industry in innovative slide out camper engineering.

Like all Arctic Fox Campers, these new Foxes are durable enough for extended cross-country and off-road travel. We build our slide outs right, using dual ram rack and pinion slide mechanisms.

Many competitors rely on a single slide mechanism.

The dual rams carry the slide-out room smoothly even under full load weights.

Five separate seals insure against water intrusion. The slide room is completely insulated for your comfort in all weather conditions. You have your choice of a number of beautiful interior decor colors. Feature fabrics enhance

the Presidential Cherry finish hardwoods and textured wall boards. We use only commercial grade vinyl floor covering and you also have the option of a removable carpet kit. (Carpet kit not available in the 865, 992 & 1160 model.)

*Beauty: It's more than Skin Deep with Arctic Fox!*

*Model 811*

Typical Dry Bath

# Floorplans

We are proud to bring you a variety of big slide out camper options. Our full wall slides are up to 26" deep, (bigger than most of our competitors). Our aluminum super structure slide out will also operate under heavier load conditions than competitors. When you compare the specifications of our slide out with the competition, you will see why Arctic Fox continues to be the industry leader. (Model 865 is a non-slide camper.) Our transverse floor structure offers a wider main floor area giving the Arctic Fox Camper a spacious feel that is immediately apparent upon entering the coach.

To Be The #1 Selling Full Wall Slideout Camper  
Requires a #1 Quality Superstructure!

**ALUMINUM  
SUPERSTRUCTURE**

*Silver Fox Edition*

Rigid Foam Insulation Mounted in a Fully Welded Super Structure with 100% Bonded Lamination in All Walls, Floor, Roof.

Main Floor Nearly One Foot Wider Than Many Other Campers!

Huge Full Wall Slide with 43"x 78" Dinette  
(Available in Most Models)

Aluminum Floor Truss/Tank Support Design

Aircraft Construction Strong & Light!

Thick Wall Aluminum with  
Fully Welded Joints

*Silver Edition Solid Core Anchor Blocking Makes the Difference*

## Solid Core Anchor Blocking

Anchor blocking gives substantial strength at connection points while adding minimal weight to the frame.  
"It's the best 10 pounds you'll ever gain"

*Silver Fox Edition*

other brands

*Question:  
What is a Full Walk-On Roof?*

*Answer!  
(...is that Full Enough?)*

26 NORTHWOOD EMPLOYEES ON THE ROOF  
OF AN ARCTIC FOX 1150 TRUCK CAMPER!

*We Don't Just Stand Behind Our Campers..... We Can Stand On Them Too!*

When a camper manufacturer advertises...

**"Full Walk-On Roof"**, they mean that an individual can walk everywhere on the camper roof. When Northwood advertises a "Full Walk-On Roof" for our Arctic Fox slide out truck campers, you not only can walk everywhere on the roof, but you could also invite a few of your friends to join you! We tested the strength of our full-wall slide 1150 model by filling the roof with 26 of our camper line employees and asking them to pose for a picture.

### Now that's a **'FULL'** walk-on roof!

We don't recommend that you invite a couple of football teams to have a party on top your camper roof, but isn't it nice to know that your Arctic Fox can handle that load and any 'normal' loading situation.

Our Aluminum Superstructure and Hot Melt Lamination process provides the Arctic Fox with superb structural strength.

And because we apply continuous welds at every joint and use solid fill blocking at all key structural connections, our frames are stronger and threaded fasteners anchor firmly and completely.

# Here are 100 reasons to buy an Arctic Fox Camper

## Construction

Aluminum Superstructure  
 .060" - .125" Thick Main Members

## Arctic Fox Camper Safety Tips

Use **TORKLIFT** frame mounted camper tie downs for greatest safety.

For your safety while driving, use mirrors that allow you to view past the camper to the rear on both sides. Trucks can be purchased with extended mirror options or you may purchase mirror extensions.

Truck manufacturers state that you should not exceed the GVRW for the vehicle that carries your camper. The configuration of your truck will determine what size camper your vehicle can carry. A dual rear wheel truck is

advisable for Arctic Fox Campers over 10 ft. Adjustable air bags will help to level your vehicle transfer rear axle weight forward for comfort and safety and are recommended for all Arctic Fox applications.

## www.torklift.com

Some states allow passengers to ride in the camper, but it is not recommended as there are no seat belts available. When driving in any adverse weather condition it is always best to reduce your speed. The pickup should be outfitted with a durable rubber mat liner to reduce shifting while traveling. The mat will also protect the truck bed and camper from scratching while loading and unloading.

# Standard Features

Curtitian folding wall is standard with all Arctic Fox Campers.

Sliding Dual Battery Tray Holds Two Group 29 Batteries 420 Amp Total Capacity

Full Pressure Hot / Cold Exterior Wash Down Sprayer

Skylight w/ Shade Available
