Please note that some options are not available in certain plans and some options are automatically included in a standard production run.

As a regular producer, Northwood manufactures its coaches with standard features and popular options that our customers consistently request. Because these options are nearly always requested, our regular manufacturing runs will include all of these most popular "optional" features. See the list on page 6 for features (both standard and optional), that are automatically included in all standard build manufacturing runs. In the chart above, you will also find additional (S) standard features and (O) included optional features that are available only in certain floor plans.
