## One Piece Laminate Walls

Our aluminum wall frames are constructed of .060" thick aluminum tubing and all joints are welded full width, not spot welded like much of the competition.

## One Piece Continuous Fiberglass

The outer skin of our laminated wall is a single sheet of tough, corona treated fiberglass. Corona treating ensures the polyurethane is able to properly accept the hot melt adhesives. A single piece of fiberglass eliminates seams that can leak & it's stronger too.

## Steel Bonderizers

We add steel bonderizer strips inside the wall at all mounting points. The bonderizers provide a steel anchor point for any fixtures that are mounted to the walls.

## Solid Core Anchor Blocking

We also add solid core anchor blocking in the frame perimeter. The solid blocking provides a substantial anchor medium for securing screw threads.

CONTINUOUS  
BEAD  
WELDS

## The Long & The Short of it.

Customers often ask... 'What's the deal with 'long box/short box' designation on the 840 & 850 Wolf Creek Truck Campers?'

A brief explanation: 'The Box' refers to the truck bed, long or short.

In a short box (bed) truck, the distance from the bulk head to the rear bumper is less, so more of your camper will extend beyond the rear bumper. That extra overhang makes it possible for additional storage or for a generator compartment. A long bed (box) pickup has more of the camper inside the bed and less overhang.

See the schematic below:

Short Box

Long Box

## A Solid Foundation: Thick Basement Walls & Aluminum Trusses. Extra Strong Thick Wall Tubular Aluminum Floor Frame

Really Big holding tanks require a 'Really Big' floor structure...  
**That's The Wolf Creek Floor Structure!**

Thick wall aluminum basement floor joists support our holding tanks under the basement of every Wolf Creek Truck Camper.

## Continuous One Piece Fiberglass Cabover / Bulkhead

No seams that can leak!

## Solid Wood Face Frame Cabinetry that is secured to the wall and ceiling!

We build our own cabinets, and every cabinet is built to the best quality specifications. By building our own cabinets, we can guarantee that they will be made right and are built to last!

## Top Quality Materials

All NORTHWOOD cabinets are made with residential quality material and methods. Because we use screws, they hold up better under travel/road conditions.

## Face Frame Construction

We use the same construction techniques used in quality residential cabinetry. We assemble hardwood styles with screws on a face frame machine to ensure strong, durable cabinets. The result: Beautiful, quality cabinetry and the best built truck camper!

## Truck Camper Magazine Review

Spending two weeks in the 850 gave us an unusual opportunity to experience a new brand and product.

For starters, the Wolf Creek 850 is right up our alley; hard-side, non-slide, fully self contained, and brimming with practical and weight saving design choices. In short, we love campers like this because they are everything we need for the kind of long-distance, go-anywhere truck camping we enjoy. Even more important, they show a willingness of manufacturers to embrace the increasing importance of lower weight truck campers and design new campers accordingly.

We really appreciated the generous holding tanks for a camper this size. Thirty gallons of fresh water? That's amazing...The gray and black tanks were also ample at nineteen gallons and twenty gallons respectively... When we turned the vent fan on, it surprised us with just how much air it pulled...

... they put a very tall bubble window in the bathroom that allowed me, at 6'3", to see almost completely around the camper... it was really fun to be able to look around and see what was going on outside the camper...

...For someone looking for an aluminum framed, hard-side, non-slide truck camper that will work with some half-tons and nearly every three-quarter ton truck, the 2012 Wolf Creek 850 deserves to be on your short list. This is an impressive camper from a company that understands truck campers and cares deeply about quality control. Congratulations Northwood on your new Wolf Creek truck camper brand and an impressive first camper with the 2012 Wolf Creek 850. August 2011

# Features & Options

## Standard Construction Features

Fully Welded, Thick-Wall Aluminum Frame Construction  
One-Piece, Corona Treated, Continuous Fiberglass  
Hot, Polyurethane Laminated, Multi-Layered Substrate Walls  
High Density Block Foam Insulation  
Laminated Floor

## Standard Exterior Features

Dual Battery Compartment  
1- 20 lb LPG tank w/Regulator  
Diamond Plate Knee Wall Armor  
Truck Storage Access Doors  
Residential Wear Floor Covering  
LED Exterior Lighting  
6 Gal DSI Gas/Elect Quick Recovery Water Heater  
20K BTU Auto Ignition Furnace w/ Digital Thermostat  
Marine Style Detachable Shore Cord  
TV Antenna  
Roof Rack and Ladder Ready  
Tinted, Safety Glass Windows  
Entry Door Friction Hinge  
Magnetic Luggage Door Catches  
Satellite Ready / Solar Ready

## Standard Interior Features

LED Interior Utility Lighting  
Interior Command Center  
Solid Wood Mortise & Tenon Cabinet Doors  
Designer Wood Grain Finish Throughout  
Roller Bearing Drawer Glides  
Fabric Night Shade Window Treatment  
Smoke, LPG & CO Leak Detectors  
110 Volt 55 Amp Converter

## Standard Kitchen Features

Laminated Counter Tops  
High Profile Kitchen Faucet  
High Output 3-Burner Cook Top  
Range Hood with Light and Exhaust Fan  
3 Cu Ft Fridge w/ Insert Panels  
Kitchen Overhead Storage Cabinets  
Multiple Kitchen Drawer Cabinets  
U-shaped Dinette  
Large Picture Window At Dinette

## Standard Bathroom Features

Porcelain Foot Pedal Toilet / Bath Skylight  
Exhaust Fan in Bathroom  
Shower Curtain with Curved Track / Full Shower

## Standard Bedroom Features

Inner Spring Mattress w/Bedsread  
Privacy Curtinon in Cab Over  
Bedroom Roof Vent  
Night Stand  
Bedroom Reading Lights  
12V & USB Charging Center on Both Sides of Bed

## Available Options

## CAMPER SAFETY TIPS:

More TORCLIFT

Use **TORCLIFT** frame mounted camper tie downs for greatest safety.

For your safety while driving, use mirrors that allow you to view past the camper to the rear on both sides. Trucks can be purchased with extended mirror options or you may purchase mirror extensions. Truck manufacturers state that you should not exceed the GVWR for the vehicle that carries your camper.

The configuration of your truck will determine what size camper your vehicle can carry.

A dual rear wheel truck is advisable for Wolf Creek campers. Adjustable air bags will help to level your vehicle, transfer rear axle weight forward for comfort and safety, and are recommended for all Wolf Creek applications.

Some states allow passengers to ride in the camper, but it is not recommended as there are no seat belts available. When driving in any adverse weather condition it is always best to reduce your speed. The pickup should be outfitted with a durable rubber mat liner to reduce shifting while traveling. The mat will also protect the truck bed and camper from scratching while loading and unloading.
