# WHAT IS ABSOLUTE NORTHWOOD?

*Our Commitment to*  
**QUALITY  
 STRENGTH  
 DURABILITY**

When you purchase a Nash, you are investing in the best quality materials, construction and craftsmanship. That is why the resale value in a Nash remains higher, and your investment retains its value longer. If you ever decide to trade in your Nash, you will get top dollar. That is why you don't see many used Nash trailers on the market, folks buy them up as quickly as they become available because Nash RVs have a reputation for durability and longevity.

## NORTHWOOD BUILT CERTIFIED CHASSIS

### WE BUILD OUR OWN HEAVY DUTY STRUCTURAL STEEL OFF-ROAD CHASSIS

We are one of the few manufacturers that build their own chassis. The name NORTHWOOD is known throughout the industry for quality chassis and we certify ours through an independent testing laboratory for quality assurance.

## NORTHWOOD BUILT ONE PIECE LAMINATE FIBERGLASS WALLS

- 'SELECT' Grade Lumber
- 16" O/C Framing
- 2x6 Slide Headers
- 2x4 Wheel Wells
- One Piece Fiberglass
- Hot Glue Pressure Applied
- Luan Backing
- Structural Joints Reinforced w/Steel Hurricane Plates

## Continuous Seamless Fiberglass Steel Reinforcing Plates Bonded One Piece Wall Sections

## OUR BONDED ROOF TRUSS SYSTEM ENSURES A FULL WALK-ON ROOF

UP TO 4" OF EXTRA HEADROOM

The Northwood Bonded Roof Truss System bonds all the components of the roof structure together as a unit. The ceiling, trusses and roof plywood are unified in a bonded system that gives superior load distribution and maximum load bearing capacity.

Top quality exterior grade plywood panels are bonded to the trusses and a thick one piece roofing membrane is then applied for a durable, long lasting seal to protect you and your coach from the elements.

## CUSTOM BUILT FACE FRAME CABINETS

CABINETRY w/SOLID WOOD DOORS,  
BUILT USING RESIDENTIAL FACE FRAME  
CONSTRUCTION METHODS &  
INTEGRATED WITH THE WALL & CEILING.

## BEAUTIFUL & STRONG

Solid Wood  
cabinet doors ensure  
lasting beauty and  
rugged strength.

Face Frame  
construction gives our  
cabinets 'high end'  
residential quality.

Structurally Integrated  
cabinetry is  
anchored to the  
walls and ceiling  
structure of our  
coaches making both  
the RV and the  
cabinets stronger.

## A TRUE FOUR SEASON ALL CONDITIONS UNIT

HEATED ENCLOSED HOLDING TANKS & DUMP VALVES  
DESIGNED FOR COLD NORTHERN/HOT SOUTHERN CLIMATES

Northwood builds true 4-Season Coaches. Our fully insulated holding tank area circulates warm air around the suspended tanks providing the best protection from freezing. Our knife valves are also enclosed to keep them from freezing. Our 4-Season coaches are insulated with various types of residential quality Batten & Reflective Foil insulation to protect you from the winter cold & summer heat.

## SMORE TESTIMONIALS

I bought a Nash 17C new in 2006. My inaugural trip was a 2 day weekend camping in the desert in Quartzite, AZ in January. It does get cold at night but the Nash is so well insulated and built, I didn't have to use the heater and no problems with the battery. That same year I traveled in a "caravan" with the family and went to Banff National Park, Canada. I have made many great memories in the Nash and there will be many more to come (yes, I still own the Nash and wouldn't trade it for anything). As a matter of fact: I have been to many RV shows and I can honestly say that the Nash 17C has the best floorplan available in it's size and the most solidly built travel trailer on the market today.

Love my Nash! Gregg Merdick - Surprise, Arizona

From our two weeks up at Priest Lake (heading home tomorrow, so sad!) As you can see we love this trailer and have "babied" it! We are able to tow easily and safely with our GMC Envoy that has the tow package. It tows like a dream!

We camped 3 nights in Two Medicine Campground, Glacier National Park with our new 24M Nash. As a test, we camped in the no generator loop, which was very quiet and were very pleased with the attached solar panel. We had no problems with not having enough power. For that trip we had plenty of water for showers and washing dishes. There is so much room in the trailer that we still have empty cabinets, what a change from before. The trailer is so well insulated that the heater only came on one night. Next trip next week, Icefields Parkway and Jasper National Park in Canada.

Here I am boon docking near Bryce Canyon, Utah with my 6 batteries, and 690 total watts of solar power...and here is my son and grand kids

enjoying a weekend stay with me and my Nash 22H. The trailer seems well built, and the dual pane windows sure help with noise and temperature fluctuations. Also the windows luckily survived a hail storm of up to 3/4" size hail stones... I researched trailers and toy haulers for several years to find the right match for me, and this off road, 22' Nash seemed to be right for me and my half ton 4WD truck. Tom Kerns St George, Utah

I just want to make sure that this message is passed on to your reception persons, parts and service people at Northwood Manufacturing. I have made several inquiries about my recent 2005 Nash Northwood 22H purchase from a private party and I needed to ask questions from Northwood about my newly acquired trailer.

Let me tell you that the customer service was SUPERB and way above the standard that we commonly see today in this fast track world. I am

very impressed with how my questions were handled and that everyone took the time to talk with me, and best of all, my inquiries and questions were answered promptly in a courteous fashion. Oh yes, the trailer I purchased is in near mint condition and very solid, love the floor plan and is very towable with my 1/2 ton Dodge Ram. I would highly recommend Northwood Manufacturing to anyone needing one of your products for whatever reason. Thanks again, Glen Ritz
