

ARCTIC FOX

NORTHWOOD MFG

Welcome

Northwood is pleased to introduce you to this year's Arctic Fox. With nearly 20 floorplans to choose from, there is an Arctic Fox to fit the needs of nearly every RV buyer. If you're in the market for a compact travel trailer & have off-road recreation in mind, or you're looking for a spacious 5th wheel for park camping, the Fox offers a wide variety of features and

options sure to satisfy your needs. That's because the Fox was designed with the informed RV purchaser in mind.

We invite you to take a look and you'll see why Arctic Fox is the RV of choice for the experienced buyer, and why the Arctic Fox is known as "Your Home Away From Home."

Ron and Sherry Nash

Comfortable

You'll be assured of a restful night's sleep in your Arctic Fox. All standard beds feature deluxe pillow top queen size mattresses and twin beds are available as an option in the 26X, 23-5A and the 24-5N models.

29-5T Mosaic Spice

Some bedroom plans feature built in vanities with large drawers and cabinets and designer laminate tops. Additional features include large mirrored closets, flat panel LCD TVs, bed slide outs feature opening side windows, and many residential features providing all the comforts of home.

Confidence

Beyond it's features, Arctic Fox has built it's reputation on quality materials and solid construction methods. Because the Fox is so durable, satisfied owners are pleased to discover how well the Arctic Fox maintains it's resale value ... if you're ever willing to turn loose of one!

Slide Rooms

Super slide models come with a jackknife sofa or optional hide-a-bed and a booth dinette that converts into an additional sleeping area or you can choose a free standing 4 chair dinette. Our Slide rooms travel on electric driven heavy duty rack and pinion rams and have 4 individual seals that maintain a seal when open, closed, and even while in transition. The Fox is Smart!

ARCTIC FOX

NORTHWOOD MFG

Form & Function: Interiors that work, beautifully!

29-5T Spring Mist

Exterior: All Arctic Fox models feature corona treated filon fiberglass exterior siding that looks great and is durable and easy to maintain. The diamond plate front rock guard and rear bumper wrap are tough, attractive and built to last. All Silver Fox models feature front and rear molded fiberglass caps. The Arctic Fox utilizes quality materials and construction from start to finish!

Outside the Fox, you will find sidewall drip rails with oversized drain spouts to project water away from the coach. There are multiple exterior lighting placements and you can add an auto scanning satellite receiver and many other convenient options.

Safety: All Foxes are equipped with large retractable safety entrance handles and retractable non-skid double or triple steps for safe, easy access. According to RV Consumer Group, the Fox also has one of the highest highway safety ratings in the industry and the improved visibility of LED running lights and tail lights now makes our Arctic Foxes even safer on the road.

In an Arctic Fox, The Beauty

Our main frame structural components are made of thick wall aluminum tubing. The joints are connected with continuous bead welds unlike many competitors who use tack or spot welds in assembling their frames. Our continuous welds are stronger and more durable.

Continuous Welds / Thick Wall Aluminum

Solid Core Anchor Blocking

We also add solid core anchor blocking in the frame perimeter. The solid blocking provides substantial anchor medium for securing screw threads. Combining heavy gauge welded aluminum with solid blocking makes a light, rigid and strong frame.

After positioning the urethane, a structural sub-layer of wood paneling is added. Our multi-layer composite wall system provides substantial strength to the coach. All layers are hot/pressure laminated, bonding them together as a single structural unit. The multi-layer exterior skin with steel bonderizer backing forms a very strong surface for anchoring fixtures.

The insulated wall section is then placed on the wood and urethane layered outer skin. Next, the hot melt coated inner finish wall panels are added. The wall assembly is now ready to move on to the pressure roller which will fuse the layers into a single bonded unit.

(Right) The outer skin of our laminated wall is made of a tough, continuous sheet of corona treated Filon. Corona treating insures the urethane is able to properly accept the hot melt adhesives. The continuous roll fed urethane laminating process eliminates midway joints that can cause leaks and weaken the structural integrity of the wall unit.

(Below) During the construction process the aluminum frame is welded, rigid 1-1/2" virgin foam insulation is cut to tightly fit in the wall panel sections. We then add steel bonderized strips at all mounting points. The bonderizers provide a steel anchor point for any fixtures that are mounted to the walls. Some manufacturers rely on attaching screws to the fiberglass skin. That method does not provide the strength that our additional steel bonderized anchor plates offer.

Corona Treated Filon

Steel Bonderizer Plates at Anchor Points

Superior Frames: At first glance, it might seem strange to include a picture of a steel I-Beam in our brochure, but we know that our chassis' are gorgeous! Everything rides on the quality of your chassis and suspension and Northwood builds the best under every Arctic Fox! Look underneath the coach and see for yourself, your family's safety is secure in the Arctic Fox. You'll feel the difference that a quality chassis,

Heavy Gauge Structural Steel I-Beam Main Rail

larger axles, bigger brakes and all wheel shocks will make as you travel down the road or when you get adventurous and take your Fox off-road

Four Star Rating: RV Consumer Group has given the Arctic Fox consistent high marks of Value, Reliability and Highway Control. The Arctic Fox is engineered for Safer Travel! Because our chassis are so solid, you will feel the difference when towing your Fox down the highway..

is much more than Skin Deep!

26Z Sienna Rust

22H Majestic Mink

25P Spring Mist

Travel Trailers

Efficient Just like home, the forced air ducted heating and cooling systems in your Arctic Fox provide fast winter warm-up and quick summer cool down. The heating system also circulates warm air to our '4-Season' fully enclosed & insulated holding tanks.

That fact makes the Arctic Fox a big seller in cold northern climates. All Foxes come standard with R-18 insulation in the roof and R-7 insulation in the walls. Thermal pane windows are also available and all Foxes come standard with 80/20 tinted windows. These windows keep you cool, provide privacy, and protect your furnishings from harmful UV rays. All this insulation also makes Arctic Fox the perfect choice for hot southern climates.

ARCTIC FOX NORTHWOOD MFG

SIT & SLEEP SOFA/BED OPTION

Easy as 1-2-3...

Sit & Sleep sofa folds down and a full 60"x80" queen mattress folds over!

SIT & SLEEP OPTION

SWIVEL CHAIR OPTION

Replace the jackknife sofa with a pair of swivel chairs.

LOCATION OF STANDARD LIVING AREA TV & LOCATIONS FOR OPTIONAL ADDITIONAL TV'S

All Arctic Foxes are equipped with a Charge Wizard battery management system to maximize your battery performance. In addition, all LPG tanks are connected through an auto change-over regulator to switch the supply of propane to a full tank when the first one is emptied.

Construction

The Arctic Fox is Built Right! Whether it's materials like our one piece heavy gauge rubber roof membrane, our corona treated filon fiberglass exterior siding, our engineered plywood decking, our thick aluminum wall framing, or our construction grade dimensional lumber, we use only top quality materials in all Arctic Fox models.

We assemble our coaches using the best proven construction methods and processes. Our laminated walls use fully welded aluminum frames (not spot welded) with solid block foam insulation.

Our custom cabinet production uses solid wood face frame construction for added strength.

Northwood never cuts corners in their plumbing installation either. You'll find full 1½ inch drain lines, freeze resistant supply lines, and even a quick semi-automatic winterization system.

Our Northwood roof truss system bonds exterior plywood decking to the trusses as a unified structure that is amazingly strong yet light weight. On smaller Arctic Fox models, the diamond plate front rockguard and rear bumper wrap are tough, attractive and built to last. Silver Fox models include molded fiberglass front and rear end caps. The Arctic Fox is quality materials and construction from start to finish!

SWIVEL CHAIR OPTION

Replace the jackknife sofa with a pair of swivel chairs.

More Travel Trailers...

with More Features!

Features

Every Arctic Fox includes a quick winterization system, all wheel brakes, black tank flush system, abundant lighting placements, numerous electrical outlets, and ducted heating & cooling in every model.

You'll appreciate features such as a Quick Recovery DSI Gas/Electric Water Heater, High Rise Kitchen Faucet and Pantry Storage Rack. You will also have your choice of many special options such as a Solar Panel, Generator, Power Awning, LCD TV and Auto Scanning Satellite Receiver. The Arctic Fox truly is feature rich!

The Silver Fox Special Edition 5th Wheels

If you're looking for the best combination of luxury and value in an RV, The Special Edition is the perfect blend of functional excellence and residential comfort and elegance. With all the value and features of a Silver Fox fifth wheel with the addition of all the refinements and amenities you would find in your own custom home.

Kitchen Features:

- Deep dual stainless steel sink
- Rich Solid Surface counter tops
- Beautiful and durable Mannington floor covering
- Residential convection microwave oven
- Handy centralized vacuum system.

Dining Features:

- Roomy dining table and chairs
- Luxurious furniture
- Deluxe inner spring mattress

Cozy and comfortable:

- "All Weather Coach" with Four Season insulation package
- 35K BTU furnace
- 15K BTU ducted air conditioning

Home entertainment features:

- Extra large LCD flat screen TV
- CD/DVD ready 5.1 Surround Sound system

Exterior style and values:

- Striking exterior graphics
- "Reflections" Hi-Gloss gel coat fiberglass siding
- Premium aluminum wheels
- CareFree Travel'r 12 volt power awning
- Slide topper awnings that both feature "Alum-a-Guard" protective covers
- Enhanced towing experience courtesy of a 5th Airborne pin box

You can further customize your Special Edition model with optional features for even greater luxury and convenience.

You see the value, luxury, and comfort. What are you waiting for?
Your Silver Fox Special Edition is waiting for you!

In Every Special Edition

Care-Free Travl'r 12V Power Awning
Alum-A-Guard Main Awning Cover
12' Slide topper w/ Alum-A-Guard

A Solid Foundation

Structural Steel

All Northwood 5th Wheels & Travel Trailers are built with structural steel main rails of I-beam or C-channel. The full length main rails and full width cross members insure a solid structure for easier towing and a quality feeling structure under foot. Each chassis also include Z cross members for additional strength. We design and build our own chassis to guarantee quality and excellent driveability. We use only top quality finishes to prevent rust, and also double prime our welds for added protection.

Camber Welds & Dual Battery Rack

Special welds are applied along the main rails to create camber. Our cambered frame has greater load carrying capabilities than others. Our chassis functions in the same way as a pre-stressed structural beam. The Arctic Fox won't sag like the competitors models under full load weight - even after many years of service.

All Northwood coaches include dual battery racks that are welded directly to the frame. Travel trailers include a large capacity, dual LPG tank rack that is conveniently located at the trailer tongue for quick access.

Cast Iron Gas Manifolds

We nest our LP gas manifold line within the chassis structure to protect it from damage. We use large dimension pipe to improve gas flow to all appliances. We also use brass fittings to attach appliance feed lines to the manifold. All of these considerations make our gas supply system extremely durable and problem free. LP appliance feed lines are protected with vinyl sleeves and sealed with silicone when they pass thru the floor.

...and Many More Standard Features

Large Capacity Exterior Access Storage Compartments with...

One Inch Thick Insulated/Locking Exterior Storage Compartment Doors

Top Quality Automotive Weather Seals Around All Storage Doors

Metal Latches, Metal Catches and Metal Pulls on Doors

Charging Station for your Portable Electronics

LED Running Lights LED Tail Lights

Cargo Netting Inside Wardrobe

Decorative Wall Clock

"Arctic Fox" Entry Floor Mat

Cutlery Tray

12 Volt Disconnect Switch

Insulated Slideout Floors

Exterior Stereo Speakers

Exterior TV Mount & Hookups

Fully Insulated Compartment

...and even More Features In Every Fox

The Arctic Fox is a true 4-Season Coach. Our fully insulated holding tank area circulates warm air around the suspended tanks providing the best protection from freezing. The tanks are large and will hold up to 76 gallons of fresh water capacity, 75 gallons of gray water storage, and up to 44 gallons in the black storage tank. The black holding tank comes with an internal sani-flush system for easy maintenance. The flush system is simple to use and makes maintenance of the waste holding tank quick and easy. All Arctic Foxes are designed with your convenience in mind and this feature is standard in all Arctic Fox Fifth Wheel and Travel Trailers!

Fully Insulated Tank Compartments

Black Holding Tank Sani-flush System

Every Arctic Fox Fifth Wheel & Travel Trailer is equipped with these standard features

- Pleated Privacy Night Shades
- Ex. Lg. 22" Range w/ Broiler
- Kitchen and Bathroom Skylights
- Large Lavy Bowl
- Smoke Detector
- LPG Leak Detector
- CO Detector
- Upgraded Mattress
- Fire Extinguisher
- GFI Circuit Protection
- Large Folding Assist Handle
- Vented/Emergency Exit Window
- 3 Speed Reversible Fan Vent

- Hardwall-Fiberglass
- One-piece Rubber Roof
- R-7 Insulation Walls & Floor
- R-18 Insulation In Ceiling
- Northwood Roof Truss System
- High Payload Axles, Tires & Wheels
- Shock Absorbers-All Wheels
- Electric Brakes On All Wheels
- Aluminum Wheels
- Heated Fresh Water & Holding Tanks
- Semi-automatic Winterization
- Built-In Black Water Tank Flush
